

MANI TEJA GURRAM

AIML Developer

Hyderabad, India 500037 | 9390426685 | manit9820@gmail.com

Professional Summary

Professional AIML Developer with experience at IGLOBUS. AI, and Digital Edify private limited, specializing in generative AI and machine learning. Successfully engineered a multi-domain conversational AI platform and a heuristic resume parser, enhancing user experience and accuracy. Proficient in API integration and data analysis, with strong problem-solving skills and a passion for innovative technology solutions.

Skills

Generative AI & NLP: LLMs, RAG Systems, Prompt Engineering, Resume Parsing System, Fully Conversational AI, Agentic ai, Crew ai	ML & DL Frameworks: TensorFlow (CNNs), PyTorch, Langchain frameworks, Hugging-face models
Programming: Python (Advanced), Basic knowledge of Java, R.	API & Integration: FastAPI, REST APIs, Model Serving, LLM Integration
Databases & Data: MongoDB, Pinecone, ChromaDB, ETL Pipelines .	

Experience

AIML Developer 12/2025 to 02/2026

IGLOBUS.AI – Hitech City

Key Projects:

Multi-Domain RAG-Based Conversational AI Platform

- Designed and developed a **production-grade Retrieval-Augmented Generation (RAG) system** using FastAPI, Pinecone, MongoDB, and Ollama.
- Implemented **hybrid intent classification (rule-based + LLM)** to efficiently route user queries and reduce unnecessary LLM calls.
- Built an end-to-end **document ingestion and semantic search pipeline** , including text chunking, embeddings, and reranking for high-quality responses.
- Developed **LLM-powered resume parsing and candidate onboarding workflows** with OTP-based email verification.
- Engineered **conversation state management** to support multi-step user interactions and contextual responses.
- Deployed and containerized LLM-based services using AWS, enabling scalable local inference and API-based model integration.

Key Projects:

Recruiter OS— Internal AI Operating and Monitoring System

- Developed a full-stack AI recruitment system featuring LLM-powered extraction pipelines for automated resume parsing and job description analysis, with real-time structured data generation and multi-format document support (PDF, DOCX, TXT).
- Integrated Google Gemini 2.5 Flash LLM with custom prompt engineering for dual-mode extraction (resume and JD), multi-pass reasoning, MD5-based response caching, and exponential backoff retry logic for reliable AI inference.
- Developed an admin dashboard with full-stack architecture using FastAPI backend and vanilla JS/HTML/CSS frontend, enabling resume-to-JD matching, candidate ranking, and extraction result visualization.
- Engineered a modular file processing layer supporting multi-format ingestion (pdfplumber, python-docx) with a centralized LLM orchestration layer, enabling scalable, schema-enforced candidate profiling across diverse document types..

Technologies: Python, FastAPI, Google Gemini 1.5 Flash (google-genai), pdfplumber, python-docx, JavaScript, HTML, CSS, dotenv, JSON, hashlib, LangChain-style prompt engineering.

Aiml Developer Intern

04/2025 to 10/2025

Digital Edify Private Limited – Madhapur

AI Study Planner (Topic-Based Learning Assistant)

- Developed an AI-powered web app that generates personalized **topic-based study plans and detailed explanations from the syllabus text.**

• Integrated Google Gemini LLM (**gemini-flash-latest**) for topic extraction and explanation generation, and Gemini

Embedding **Model (text-embedding-004)** for semantic text vectorization.

- Enabled **complete offline** operation using **Ollama (Llama 3.2)** and **Nomic Embed Text** for local inference and embeddings.

• Implemented Flask APIs for **syllabus parsing, topic extraction, plan generation** , and Markdown-based concept explanations.

- Utilized **Chroma DB** for **vector storage** and retrieval with both Gemini and Nomic embeddings.

Technologies: Python, Flask, Google Gemini API, Gemini (gemini-flash-latest, text-embedding-004), Ollama, Llama 3.2, Nomic Embed Text, ChromaDB, Tailwind CSS, dotenv, JSON

Education

Bachelor of Science: Computer Science And Engineering

08/2025

Institute of Aeronautical Engineering - Dundigal, India
